INTRODUCTORY

The Publishers, in presenting their 1926 edition of the City of Peterborough Directory, thank the people for the liberal support they have received.

Every means has been taken to render this Directory accurate and up-to-date in every detail known to progressive Directory Publishers.

The number of names in the Alphabetical Directory is 10,976 which multiplied by $2\frac{1}{2}$ (the multiple used by all Directory Publishers), gives a population of 27,440.

BOOK ON LAWNS AND GREENS

LAWNS AND GREENS

It is most important that the lawn should be sown with a mixture of grass seeds especially adapted for the purpose required. A mixture suitable for a Park or Golf Course would be quite unfit for a private lawn, Bowling or Putting green. All the finest grasses that are most suitable for the formation of a lawn when grown for seed, produce very much less weight of seed per acre than do the coarser growing varieties, consequently the cheaper the mixture the coarser the turf. We maintain that the finest dwarf growing grasses are the most economical even for large areas, as the turf formed by the dwarf compact habit of the finest grasses requires to be mown only about half as many times as a turf formed of coarser growing varieties.

BOND Your Employees

This is a Matter of Business

A Guarantee Bond issued by one of our Companies relieves the necessity of asking a friend to become surety. We also issue Bonds for Contractors.
